

WALTERIA PTA PLANS INTERESTING MEETING

"Community for Youth" will be the topic for the monthly meeting of Walteria PTA to be held at 2 o'clock this afternoon in Walteria Recreation Hall. Mrs. Robert Ziske will preside. Joseph Kennick, guest speaker, will be presented by Mrs. R. T. McNulty, program chairman. Featured committees will be health, art, and publicity. Sixth Grade mothers will serve as hostesses.

The Halloween festivities sponsored by the PTA proved an outstanding success. Mrs. Frankie Stevens, committee chairman, did a fine job and both the Saturday night dance and the Halloween carnival were well attended. A two-fold purpose was served: There was no report of vandalism in Walteria over the holiday week-end and children were kept out of mischief by the entertainment at the park. The affair was a financial success, and as a result a goody sum will go into the PTA treasury to be used for child welfare in the community.

Vicky Stevens and Dicky Ziske were crowned Queen and King of the carnival, due to a pre-Halloween contest. Various personages appeared at the masquerade dance, from hobos, In-

'Parents Can Do Anything' Educator Tells PTA Group

Approximately 125 members of Seaside PTA gathered Thursday evening to discuss the "whys, wherefores and methods of elementary education." A short business meeting was conducted by the president, Mrs. Paul Roettger, who later turned the meeting over to Mrs. Raymond Hole.

Mrs. Hole presented Los Canioneros, mixed choral group of adult voices, organized and conducted by Mrs. Thomas H. Mahin. So fine was their rendition of Fred Waring's "I Dream of You" and "The Sleigh" that Miss Corinne Seeds, principal speaker of the evening rose to her feet exclaiming, "parents can do anything!"

Miss Seeds, principal of the Laboratory School at UCLA, pointed out that parents can influence trends in education so that they will be adjusted to fit their needs, and the needs of the community.

Early in the week questionnaires had been placed in the hands of the parents of Seaside students. Sixteen questions about the elementary program were listed, with spaces provided for others to be written in. The questions indicated by the greatest number of those returning the sheets to Mr. Eckert were the ones opened for discussion at this point. Many parents to know how parents can help at home with the children's work.

Messrs. Walter Rehwald, director of instruction; Jack Rouman, psychologist, Torrance Unified School District; and Earl Eckert, principal of the Seaside School, joined Miss Seeds in forming a panel to which the parents could direct specific questions on this subject.

It was pointed out by members of the panel that understanding one's child, providing an atmosphere of security for him, supplementing his school experience with "deepening experiences," and one's attitude toward the school and teachers are all extremely important in helping the child adjust to the educational program.

Several parents indicated a willingness to help more specifically but felt hampered by not knowing exactly what method to use. This led to a request by the parents for parent group meetings to increase knowledge of methods now being used by the teachers to gain being used in the classroom.

The hostess, whose hobby is orchid and fuchsia culture, fascinated the group with an exhibit of her more than 2,500 orchid plants. Highlighted was her regal Cotallia-type orchid, in full bloom, having been started from seeds six years ago. Various bottles of tiny seeds, community pots, and single pots also were shown. It takes from five to seven years to produce a perfect flowering orchid plant, she explained.

How overseas service puts the world by your telephone

1. For doing business and keeping in touch with friends, overseas telephone service has become an everyday tool. In its twenty-two years, the calling rate has jumped from about 2,300 calls a year to 600,000. Today, your voice can be sent over short-wave radio to ninety-four per cent of the world's telephones...over circuits as long as 8,000 miles.
2. Skilled technicians in the circuit control room keep constant watch on their equipment to make sure your voice can hurdle the earth and still sound about as clear as a cross-town call. And overseas service is easy to use. Your Long Distance operator will give you the rates, the best time to call...and set up an appointment call for you if you wish.
3. In 1927, the lowest overseas rate from the West was \$84.00. Now the maximum to most countries is \$12.00 (plus tax) for three minutes. Many calls cost less. Making it possible to call almost anyone, at low cost, is another way we've made your telephone more valuable.
